* Degrees granted by Indiana University, does not include Purdue University or Statewide Technology degrees.

A study of Indiana University degrees granted 1830-1930 stated that 1,598 degrees were granted before 1886 but did not detail these degrees by year. The figures given by year on the preceding pages for 1830-1886 were taken from an internal office chart and verified by counting names of graduates from a combined graduation roster for 1830-1930. Footnotes (a) and (b) must also be included to reach the 1,598 cumulative total.

(a). Some 289 degrees were granted 1830-1930 with no date recorded. These are presumed to have been granted prior to 1885 and thus are included at this point.

(b). Some 60 degrees cannot be accounted for if the 1,598 figure is taken as "given." These 60 degrees are added to the chart in the same place as degrees with no date in order to bring the chart into balance.

(c). Some 60 honorary degrees were apparently granted in 1946 and 1947 which cannot be accounted for. These are added after 1947 on the chart.

(d). Some 55 honorary degrees were apparently granted 1950-1953 which cannot be accounted for. These are added after 1953.

(e). All figures shown on the preceding pages are apparently January-December calendar year totals. This is unconfirmed before 1930. The figure "June 1968" includes January-June 1968. All figures after that are for July-June budget year totals, which corresponds with present reporting requirements. Also, honorary degrees are apparently included until June 1968 although this is unconfirmed before 1935. Honorary degrees are not included after June 1968.

*** Degrees below the Associates level are not included (certificates.)
