## Official Financial Aid Report University Reporting & Research

Aid Administered by Campus Financial Aid Offices  
Fiscal Year 2005-2006, Vol. 16, No. 1

This report illustrates financial aid awarded to students enrolled at time of census in any one of the semesters that comprise the fiscal year of 2005-06. With this report we introduce several changes in format and with the definition of the aid data.

The new information systems implemented in the student financials area have necessitated a thorough review and refinement of the various sources and types of aid. As such, the aid figures for this report were different enough in some cases to preclude the use of percent change from the previous year. Rather, measures are added to reflect the percent of total aid, and percent of total aid within the various demographic or student characteristics.

Data are provided - on the next page for the university and on the bottom half of the campus pages - that provide the percent of students that have received aid by type and total aid. Cells with 10 or less are perturbed.

As always, we appreciate your comments and ideas on improving this report.

The data for this report comes from the institution's Student Information System (SIS) submission to the Indiana Commission for Higher Education. The Commission requires all public state institutions to submit a dataset that provides an accounting for all enrollment activity over the four semester time period roughly equivalent to the July 1 through June 30 fiscal year (Summer II, Fall, Spring, Summer I). The financial aid categories depicted on this page reflect the Commission's schema for reporting aid. Wherever possible, aid reported to the Commission comes from student financial records and reflect actual monies disbursed to the students and is based on financial aid year.

## Award Category Definitions

The following aid categories and descriptions are supplied by the Indiana Commission for Higher Education in their instructions to institutions submitting data.
